Sani File No. 4 of 1924

Serial No. 1

From the Sanitary Commissioner No C 557-7 of 17th July 1924

Suggests an amendment to rule 11 of the rules relating to the minimum no of cases of vaccination to be performed by each Vaccinator.

Rule 10.

Subd 1) The Sanitary Commissioner has proposed that the words "health & weather permitting" may be added after the word "days" in rule 10 The change seems to be suitable and might perhaps be added after the word "months" instead of after the word "days"

2) Amendation to rule 11. The amendment ~~from~~ suggested by the Sanitary Commissioner is in accordance with the instructions contained in Govt no L 6909-181 Sani 7-22-14 of 12.6.24 The same might perhaps be substituted for para 11 of the rules re. vaccination in rural area

Subd for order

Sir,

Under instructions conveyed in para 2 of Government Proceedings No. L.9609-18/San. 7-22-14 dated the 12th June 1924. I have the honor to append below, for the approval of Government, and amendment of para 11 of the rules issuec with Government Order No. L. 3840-59/San. 51-22-4 dated the 21st November 1923 in connection with the direction and supervision of vaccination in rural areas. The amended rule will read thus :-

"As a rule every vaccinator might be expected to be able to perform annually primary vaccinations equivalent to a minimum of 31 per mille of population. It is not, however, considered expedient to fix a uniform standard for all districts and localities. The standard for each locality or area should be fixed from time to time by the Presidents of the District Boards or Municipal Councils in consultation with the Sanitary Commissioner

It will be left to the Presidents of the local bodies to deal with cases of unsatisfactory out-turn of work by suitably punishing the vaccinator."

2. In the preceding rule 10, the words "health and weather permitting" may be inserted after the word "days"

I have the honor to be
Sir,
Your most obedient servant
